WHAT IS A WASTE AUDIT?

RECORDING YOUR WASTE

Although it may sound scary doing a waste audit for your home is actually really easy. All you are doing is recording what you are putting into your bin for a set amount of time.

We often throw things into our bin and then don't give it a second thought. Out of sight, out of mind. But do you know what actually happens to the items you are throwing away?

*"There is no such thing as 'away'.
When we throw anything away it must
go somewhere." Annie Leonard*
